ENTER NUMBER OF QUESTION	DO NOT WRITE IN THIS MARSIN
1a. One phase is depression, this is	Ш
when an individual may be eating	
too much or too little. They may	
hour an irregular sleeping pattern and	
not be socialising as they normally would.	Ш
During this phase some may isolate themselves	
from society. Another phase is to emotionally	
recorate After suffering grief this is when	
an individual begins to move on , and	-
may get back to their normal routine,	
work, songot etc. This is not to say	
they have forgotten but instead moved on	
from gricing.	
to Rogers three core conditions are ideal	
self self concept and self esteam.	
One of Rogers core conditions	
is self concept	
b. Marsala may be stuck at the depression	
stage, potentially huding more support to	
get out of it. Marsala is struggling to sleep	\sqcup
therefore her general health may be impacted.	
As her coure worker said, it is 'norma' for	

ENTER NUMBER OF	DO NOT WRITE IN THIS
Marsala to be feeling sad and anxious as this	MARGIN
is part of the griening process. In order to	
Move on she has to experience these	
feelings although it is important she has	
a stupport system in place.	
2. One of Roge's core conditions is Self concept. This	
evaluates nur self esteem self worth and	
ideal self our saf concept is developed by	-
our own thoughts and beliefs and others. This	
Gould be through roles and labels. If we are	\vdash
labelled as something negative this could effect	\vdash
our self esteem negatively.	\vdash
thother condition is positive self regard.	\vdash
This relates to our conditions of worth. This	
15 how worthy we see outselves, if we are	H
The last core condition is Loans of	
Evaluation. We do an internal and	\vdash
external locus of evaluation on	\Box
ousewes Internal evaluation is on our	\Box
personality, behavious and mannersmu	
Are we behaving appropriately. External	
evaluation is on our appearance	

ENTER NUMBER OF QUESTION	DO NOT WRITE IN THES MARGIN
the may evaluate if the physically the into 'norms' of society and make judgements on ourselves based off of this.	
3. One key feature of Conflict theory is control, coersion and constraint imposed by	
how dominant groups such as the	
government and CEO's how control over society	<u>J.</u>
For example the cost of living, fuel prices being raised is something we do not	
have control of whereas cro's do.	
differentials built into social structures.	
This feature also discribes those with power within society, for example	

ENTER NUMBER OF QUESTION		DO NOT WRITE IN THIS MARSIN
	teachers, social workers and the police have the power within society to make important decisions individuals how different level of power and authority that often depend on their 'role' in society at the time. This keeps society tunctionally although can sometimes be manipulated or tower advantage of	
	Education is part of secondary socialisation. Primary and secondary education play a large tole in people's lives, teachers and classmortes may influence correct choices and paths. Peers and evivorment may influence life another this be positive or negative. Standard education may influence an individual future eg it an individual is inferested in art or Biology they may follow on with a degree or job in the setor. There is also the 'hidden aumanium' whilst in Education individuals learn manivers, norms and social!

5.	A feature of symbolic interactionalist	
	thoury is 'concept of role touring' his	
	all have 'roles' within society often what	
	we are labelled as has an influence in	Ш
	what role we end up in . Jazmin may	
	hour had career goals, although now	
	she has been labelled as 'neuro-diverse'	
	it is possible this is all she sees herself	
_	as now, that is ner role in society	
	Jazmin may not believe she has the	
	appertunities for progression that she	
	previously had thather key feature	
-	is the idea of self concept now that	
\vdash	Jazmin has been labelled she may not	
-	bein hersent as highly as she premiously dis	
	meaning her self worth, self eskern and	
-	self concept may have decreased. Jazmin	
-	may have believed she had found have	
-	settled in and made friends at school,	-
	she may not be able to relate to her	

ENTER NUMBER OF COLESTION	DO NOT WRITE IN THIS WARGIN
friends as she did and be worried to	
be seen as 'different! Jamin must recien	4
the correct support from family and staff to ensur	4
she still achieves everything she was set out	-
to do and does not let being 'labelled' have	-
a regative influence on her life.	-
6a. One stage of the courc planning process is	\perp
to assess. Assessment are usually done	
using SPECC to see if needs are being	+
met. When assessing proffessionals must	-
do this hollistically and look at the	+
whole person. They may look at what	
needs where were met well at home, why	
and now can this be maintained. They	_
may also look at what needs were not	-
being met at home and now this can	+-
be improved / needs can be met within	-
the Service.	
Another stage of the core panning	\perp
process is to review. It is important	
that care plans are continued document	1 1
open to feetibility and change depending	9
on the individual-They should be	
regularly updated suited to the individuo	U)

SHTER NUMBER OF QUESTION	DO NOT WRITE IN THIS MARGIN
Mals and preferences.	
	+
h Those deads matribute to matri	
b. These stages contribute to positive care	+
practice as they ensure a hollistic,	+
whole person approach. The service use	
should be involved in the assessment	-
planning of their care plan. This	\perp
follows the health and social care	
Sternolard be included and is good	Ш
practice. The review stage is flexible	
and continuos and depends on the needs	
of the person meaning person autrol	
arc is provided.	
It also contributes to positive rave practice	
as staff need training in order to	
create care plans therefore they will	
be confident and competent areating	
these accourately	
Care planning ensures positive course practice as	
they are showed and communicated amongst	
staff meaning if there our any changes or	
updettes, every body is awave therefore the	
Engnest steendard of courc is provided

7. To areate a positive our environment staff	
should follow health and social care	
standard be included. Service users should	
be included in decision making, this aud	
be within regarding personal core, menu	
planning, activities, what they are	Ш
wearing that day etc. This will help the	
service user to feel comforteable, respected	<u></u>
and empowered.	
Another organisational feature that could	
contribute to a positive corre environment	
is personalisation E.g if a service user	
has just moved into a coure home or	
sheltered housing, help them to	Ш
decorate, this could include pictures of	
family or even own duret sets. This	Ш
helps to prevent institutionalization	
and hulps the Service user to feel more	Ш
comportable and at nome	
To create a positive convironment stuff should bourn	
names. E.g for an individual in hospital names on	
whiteboads. Ask the politicus what do you like to becalled

getting to know me ferms ove effective.	
8. A proffessional value a core worker sho	Du
have is compassion. To work in our or	
with runerable people it is important	
to snow empathy, but not supathy luc	
want to show that we have an	$\perp \perp$
understanding of the pain they are in	-
or now they are feeling, but not	
sympathetic and making them feel	\perp
bad about the situation they may	
be in.	+
Another value that is important when	\dashv
working within come is communication	1.
when working within care you will	\dashv
be working with many different	+
needs therefore it is important we	-
understand how to communicate	+
with diverse groups of people, and	
hour patience when doing so.	-
As must be educated on	\dashv
how to meet the reads. How can	-
we make adoptentions for those	
strageting with communication.	+
picture boards, ipad/electrical devices.
