

# Commentary on candidate evidence

The evidence for this candidate has achieved the following marks for each section of the project.

## **Prompt A(i): Explain two aspects of development.**

The candidate was awarded **6 marks** because they showed a good understanding of the identified aspects of development and related these to the target child in the case study.

Identification of a target child allows the candidate to be specific in identification of expected milestones for the developmental age of the child identified. Marks were awarded for the following points:

### **Physical Development (3 marks)**

- ◆ Paragraph 1: **1 mark** awarded for the description of development related to the age of the child in the case study.
- ◆ Paragraph 2: **2 marks** awarded for the age appropriate milestones.

### **Cognitive Development (3 marks)**

- ◆ Paragraph 3: **1 mark** awarded for the description of development related to the age of the child in the case study.
- ◆ Paragraph 4: **2 marks** awarded for the age appropriate milestones.

## **Prompt A(ii): Explain the interrelationship between these two aspects of development on the chosen child or young person.**

The candidate was awarded **5 marks** because they clearly showed the inter-relationship aspects of development and related these to the target child in the case study. Marks were awarded for the following points:

### **Interrelationships of aspects of development (5 marks)**

- ◆ Paragraph 1: **1 mark** awarded for 'two or more aspects are being developed at the same time which is called holistic development'.
- ◆ Paragraph 3: **2 marks** awarded for examples 'information, evaluate and problem solve' and then 'imagination will also be developed ...'.
- ◆ Paragraph 4: **2 marks** awarded for 'Tom will use his memory' and 'using his fine and gross motor skills while dressing himself ...'.

Overall the candidate was awarded **11 marks out of a potential 12** for item A.

**Prompt B: Analyse three factors that influence development.**

The candidate was awarded **11 marks out of a potential 15**. At times the candidate made statements that were not supported with research or had inconsistencies in the analysis. The candidate was awarded marks for relevant influences as follows:

**Environment (5 marks)**

- ◆ Paragraph 1: **1 mark** awarded for the general description of a positive influence on development.
- ◆ Paragraph 2: **4 marks** awarded for; 'being outside in the fresh air ...', 'exercising will keep him healthy', 'social cues, socially acceptable behaviour', and 'conversing with other children, learning body language and new words'.

The candidate showed a good understanding of how the holistic impact will have a positive influence on the target child.

**Economic (3 marks)**

- ◆ Paragraph 1: **1 mark** awarded for the general description of the disadvantages of low income on the case study child.
- ◆ Paragraph 2: **2 marks** awarded for 'miss out on play opportunities' and 'Language development could be stunted ...', which is related to the impact of low income. No marks awarded for physical development 'due to low income ...'
- ◆ No marks awarded for 'junk modelling' as this is a poor example of a disadvantage which the candidate has attempted to relate to a positive factor.

**Family (3 marks)**

- ◆ Paragraph 1: No marks awarded for the first half of the paragraph as it did not link to the brief or relate to the case study.
- ◆ Paragraph 1: **3 marks** awarded for 'Tom wasn't able to get to the park...', 'trouble sleeping', and 'wasn't getting the usual praise that he would', with the candidate making links to the brief and benefits of play to holistic development.

Please note however, that professional judgement will always be used if positive and negative factors are discussed, bearing in mind prompt **B** clearly directs candidates to identify one positive and two negative factors that influence development.
