Candidate 1

Topic – what impact will the 2030 ban on petrol and diesel cars have on the UK economy?

RESEARCH

The Guardian article used was written 15/03/2021 and is up to date. As a result the information is current and relevant to my project.

I have used the BBC as a source for my project. The BBC is a publicly funded, unbiased and well respected news source. It is seen as trustworthy and neutral. It has a charter from the government requiring it to provide valid and unbiased information on the issues upon which it reports. As a result the information gathered from the BBC is current and relevant.

The Cambridge Econometrics report is written by experts and uses the format of the Department for Transport model. In this model mathematical relationships are used to show contrasting travel choices. This allows for future travel demands to be predicted which in turn allows the success of the transition to electric vehicles (EVs) to be determined more accurately. The information gathered from the website is accurate and reliable as it has been written by specialists highly qualified in this field.

Information given in Appendix

Candidate 2

Topic – what have been the main economic impacts of covid 19 on the uk economy?

Research

The UK Parliament Website, House of Commons Library is a reliable source as it provides graphs and all outline the different economic impacts in the UK due to Covid, it also gives many statistics information of UK's GDP in April 2020. This source is published in 17 December, 2021 which up-to-date, also this source is published by the UK Parliament which make it an accurate source and provide accurate data

On the Office for National Statistics, it provided information of Coronavirus and the impact on output in the UK economy to a large extent. This paper analyses the overall impact of Covid-19 on the GDP output index in June 2020, and deeply understands the impact of coronavirus on the British economy. This source is reliable because it is the executive office of the UK Statistics Authority and has experts in statistics which reports directly to the UK Parliament.

The BBC News Website is an appropriate source. On its website, many reports keep pace with the times, making reports at the first time. It provides graphs and statistics related to

impacts of Covid-19 on UK economy. The BBC News Website also has a strong reputation, it should be considered to be an unbiased and trusted source.
