

Higher ESOL writing – Work

Candidate 8

This answer falls short of Higher standard required in terms of range, accuracy and layout.

Mark awarded: 5

The task is not fully achieved, coherence is weak in places. This lack of coherence means the message is not easily conveyed on first reading. The style and layout is that of a letter and is inappropriate for the intended reader. There is little evidence of paragraphing, meaning the structure is confused.

The range of the vocabulary is limited in range with incorrect word choice, possibly because of not understanding what a 4-day week is, and this limits the achievable marks.

A limited range of structures is used and the excessively long sentences impact on the accuracy of grammar and punctuation.
