

Candidate 1 evidence

<p>Question 1.</p> <p>(discussion point, how it can be applied)</p>	<p>DO NOT WRITE IN THIS MARGIN</p>
<p>1a. Colour, shape, texture</p>	
<p>Colour - The colour of orange bright orange from the sunset sky, purple from sunset sky, bright pink from feathers, bright/deep blue from carnival mask and the lighting in drums photo, white from bright lights in city and from road markings and and carnival photo.</p>	
<p>Texture - smooth texture from orange and purple sunset sky, fluffy texture from pink feathers, bumpy/fluffy texture from feathers on carnival mask, rubbery/smooth text texture from white road markings, soft/smooth texture from white lights.</p>	
<p>Shape - straight shape from sunset sky, curved, non-identical, heart shape from pink feathers, wavy, curved shape from carnival mask, circle, cylinder shape from city lights, rectangle, straight, long shape from road markings.</p>	
<p>Discussion point - how it's applied to an item:</p>	
<p>The designer could be inspired by the smooth texture of the sunset sky by using a smooth fabric like silk to make a nice, cooling, text lightweight summer evening dress. This fabric would mimic the similar texture of the smooth sky and would be nice fabric on the skin as a light summer dress.</p>	
<p>The designer could be inspired by the bright orange colour from the sky as it is a very summery, bright colour that would be lovely very summery on clothes. A bright orange bikini would make the skin look healthy and tanned in summer and it's the same colour as the sun. This mimics the similar colour of the sunset sky.</p>	

DO NOT WRITE IN THIS MARGIN

The designer could be inspired by the wavy, curved shapes on the carnival mask by creating a top/dress that's very loose and wavy that isn't skintight. This would be very useful in the summer as it wouldn't be too warm and wouldn't stick to your body like a glove. It would be free, easy and cool for the summers and it also mimics the curved, wavy shapes on the mask.

The designer could be inspired by the vibrant white colour from the city lights by designing white items of clothing for the body such as shorts. White brings out tanned skin in the summer and makes someone's skin look healthier. This therefore mimics the white lights colour and ~~is~~ creates a summery look.

The designer could be inspired by the circular shape of the city lights by designing a circular hat/cap for summer. The hat will protect teenagers from getting sun burn/sun damage and would be a very stylish shape. This mimics the ~~er~~ round city lights.

The designer could be inspired by the fluffy texture of the feathers to make an evening summer dress. It would be very stylish and not too warm as it could have thin straps and be quite short. This mimics the feathered back piece.

The designer could be inspired by the straight shape of the road markings to make a tube top. A tube top would be very light and cooling and would be worn in summer by teenagers. This mimics the straight road markings - and the lines on the body.

Higher Fashion Assessment

1a) on the moodboard I can see that there is sprinkles on the ice cream. This could influence the designer to use different colours of seed beads scattered in a random pattern on a summer skirt. This will add a colourful decorative effect.

on the moodboard I can see that there is a triangle red flag. This could influence the designer to do a V neckline on a summery top. This will enhance the shape of the body.

on the moodboard I can see that there is a rainbow umbrella. This could influence the designer to do a rainbow tie dye effect on a summer dress. This will stand out and make the dress really summery with all of the bright colours.

on the moodboard I can see that there is a frilly edge on the umbrella. This could influence the designer to do frilly spaghetti straps on a summer swimsuit/bikini. This will add a more dramatic look and look flattering.

on the moodboard I can see that there is grainy/gritty sand. This could influence the designer to create a mesh overshirt to go over a bikini. This will add a texture and will give a sand texture effect.

on the moodboard I can see that there is a blue sky and darker blue ocean. This could influence the designer to create an ombre denim pair of shorts with ~~thin~~ light blue and dark blue. This will stand out in summer and give the shorts a pretty ombre effect.

on the moodboard I can see the swirly pattern of the ^{blue} ice cream. This could influence the designer to create a summer hat with lots of swirly patterns on it. This will give the hat a more dramatic look and will look very summery with ocean waves.

on the moodboard I can see that there is squares on the ice cream cone. This could influence the designer to ~~create a~~ use square shaped sequins scattered ~~on~~ in the middle of a summer top. This will shine in the sun and draw attention to the top.

on the moodboard I can see that there is a blue swirly pattern on the ice cream. This could influence the designer to create a floaty ~~be~~ ocean wave beach dress. This will give a more dramatic look.
