### Question 1

A pregnant woman is going to buy the following trousers.

- (a) Name one plant based natural fibre that would be suitable for the trousers.  
Explain three reasons why the fibre is suitable.

4

Fibre Cotton

\*the trousers  
would withstand

Reason 1 Cotton would be a suitable fiber as it is durable, this means \*any wear and tear ~~that~~ that happens and they wouldn't rip so the wearer wouldn't need to buy new trousers

Reason 2 Cotton would be a suitable fiber as it is stretchy and as the bump grows the trousers will adjust and stretch to the same size <sup>\*on extra paper</sup>

Reason 3 Cotton is soft this would be suitable ~~for~~ for a pair of trousers for a pregnant woman as they will want to be comfortable and not wearing things that put them in <sup>DISCOMFORT \* on extra paper</sup>

## Question 1 (continued)

- (b) The trousers are made of knitted fabric.

Evaluate the suitability of three key properties of knitted fabrics for maternity wear.

Evaluative comments must include reference to the trousers.

Evaluation 1 ~~knitted fabric is extremely breathable~~  
 this would be suitable for a pair of  
 trousers as, ~~the fabric will wick away~~  
~~any~~ sweat away from the body and

on extra  
extra 3  
paper

Evaluation 2 knitted fabric is stretchy, this  
 would be suitable for a pair of trousers  
 as, when the baby bump gets bigger over  
 time the trousers will stretch to the

Evaluation 3 knitted fabric ladders easily if  
 caught, this would not be suitable for  
 a pair of trousers as, if the trousers  
 get caught on something which is

- (c) Explain two advantages and one disadvantage of buying the trousers online.

3

Advantage 1 it's easier to buy the trousers  
 online as ~~there~~ there is no travel  
 needed to get the trousers and being

Advantage 2 there is a wider range of shops,  
 this would allow the pregnant woman to  
 browse different shops with different

Disadvantage they wouldn't be able to try the  
 trousers on, this would mean that when  
 the trousers arrive they could be ~~the~~ wrong

## Question 2

A fashion designer is creating a range of outfits for teenage party wear.

One of the designs in the range is for a skort.

(a) Consider the following three aspects of design for a skort:

- style
- fabric to be used
- embellishment.

For each aspect of the skort, describe one feature that would be important in the design of the skort.

Explain why each feature you have described is suitable for a skort.

6

## Style

Description the length would be high thigh  
~~length~~ ~~to~~ ~~high~~ ~~thigh~~ ~~length~~ ~~to~~ ~~high~~ ~~thigh~~

Explanation this would keep it age appropriate  
~~but~~ still party wear and look  
good on the wearer and if they wanted to wear a  
 type of tights then there would  
 be lots of leg for the tights  
 to show and be seen.

## Fabric to be used

Description polyester blend with elastane

Explanation this would allow the wearer  
to move\* in the skort as it would  
stretch ~~due~~ to the elastane and  
the polyester would mean that ~~the~~  
~~skort~~ the skort will withstand any  
wear and tear that occurs when dancing  
at the party

\* and  
 dance  
 freely

Question 2 (a) (continued)

Embellishment

Description tassles on the scort

Explanation this would look asthetically  
pleasing when the wear is dancing at  
the party as they would move with

(b) Explain how each of the following influences consumers choice of party clothing:

- geographical location
- environmental issues.

Geographical location

Explanation 1 geographical location could  
influence a consumer choise as if  
their was only 2 shops nearby

Explanation 2 also if they couldn't travel to  
other shops then they may have to  
buy from the shops they have <sup>influencing them</sup> to buy from  
the local shop

Environmental issues

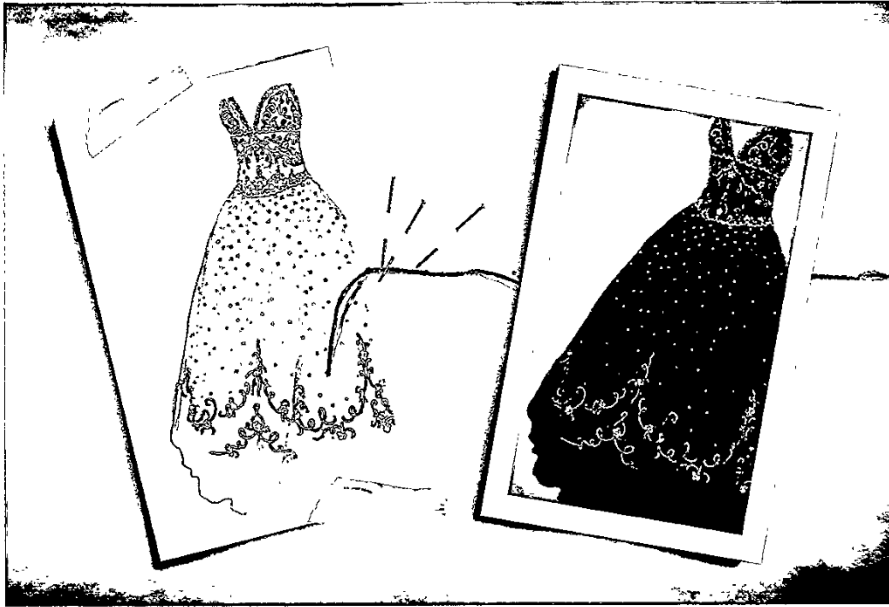

Explanation 1 enviromental issues can influence  
consumer choise as if their has been  
a big event or protest on climate

Explanation 2 enviromental issues can infleuence  
consumer choise as big companys that  
produce fast fashion and use big factorys

## Question 3

A Fashion and Textile pupil is using a commercial paper pattern to make a Prom dress.

- (a) Identify each of the following pattern markings that would be found on the commercial paper pattern for the Prom dress.

4

 button and button hole

 lengthen and shorten line

 notches

 multi size cutting line

## Question 3 (continued)

- (b) The pupil is using 100% viscose fabric to make the Prom dress.

Evaluate the suitability of three key features of this fabric.

Evaluative comments must include reference to the Prom dress.

3

Evaluation 1 viscose ~~is~~ has excellent breathability, this would be suitable for a prom dress as, at prom it can get hot and sweaty when dancing and being in a room with lots of people viscose.

\*excellent  
absorbancy

Evaluation 2 viscose has ~~excellent absorbancy~~ ~~excellent absorbancy~~, this would be suitable as if ~~there was~~ ~~to be~~ something was to spill on it before prom then it would be hard to get the stain out

Evaluation 3 viscose has fair/moderet insulating, this would be suitable as if the wearer was outside taking pictures or queing to get in then they would be warm and not feeling cold meaning they feel warm and ~~comfo~~ a sense of comfort

- (c) (i) Name a type of seam that encloses the raw edges to prevent fraying.

1

Overlocked seam

- (ii) Describe why each of the following would be used in the construction of a Prom dress.

- lining
- interfacing.

2

Lining lining can extend the lifetime  
of a item as it would prevent  
wear and tear to the outer fabric

Interfacing interfacing provides structure and  
support, this would mean that the item  
would not sag on the wearer

## ADDITIONAL SPACE FOR ANSWERS

1a) reason 2: meaning a new pair of trousers wouldn't need to be bought as ~~the~~ the bump grows and gets bigger, so do the trousers

reason 3: meaning ~~they~~ will the trousers will provide a comfortable experience for the wearer.

1b) ~~allow air to pass through leaving the wearer feeling comfortable and not clammy or sweaty.~~

size of the bump meaning the wearer won't need to buy new trousers making them good value for money.

really easy to do and happens a lot then the fabric will ladder and run destroying the look of the trousers and the wearer would need to go and buy a new pair.
