Such as when someone needs help we have the free will to either help the person or to ignore them because we don't want to help them which Christians believe is missing our free will. 6a)	

Will look at how we lived our lives seeing if we choose free will to follow & live for Jesus or chose our free will to follow & live for the world. For example Christians believe when we die we will be stood in front of Jesus & we will be asked how have we lived our lives this means have we used our free will to follow Jesus & to get into heaven if we have no Jesus will judge us on how we used our free will in order to get into heaven ~~to~~ or go to hell.

6a) the main points of Jesus resurrection is when Jesus died he was placed into the tomb on what we call Palm Sunday when he was placed inside the tomb his mother Mary & other women went to get some oils to cover Jesus in when they returned they saw that Jesus wasn't there they all started to panic until Jesus appeared again healthy & fit and not in pain he told them it was all okay as he is now living in heaven in his almighty Kingdom. Mary & the women cried and hugged Jesus as they were glad that he was alive and well. Jesus had died on the cross for our sins. Jesus returned to his Kingdom

	<p>and lived there for eternity knowing his job was done and and that we were all saved knowing we will be able to live with him in his kingdom.</p>
6b)	<p>I am unsure of whether it is essential for christians to believe in the resurrection of Jesus. Many christians would agree with the statement as they think that in order to be a christian they have to believe in what the bible says as in the new testament it speaks about Jesus's resurrection as christians believe whatever is written in the bible must be true meaning that Jesus resurrection did happen in which christians also celebrate on easter as this is a big event to them. However some christians may not believe in the resurrection as they may believe that it isn't possible for Jesus to come back after dying, meaning that they think the bible is not 100% telling the truth about what actually happened. In my opinion I believe that it is mostly likely essential for christians to believe in the resurrection of Jesus as it says in the Holy bible bible that it happened meaning that christians should follow what the bible says however I</p>

do think that not all christians believe in it as they may think that it isn't possible. So therefore I am unsure of whether it is essential for christians to believe in the resurrection of Jesus.

Part D

34. There are two ways in which people are cared for at the end of their lives one of them being what we call palliative care this means end of life care in which the dying person goes to this home like place in which as all the phrasletics ~~is~~ to suit their needs they will also have caring staff round them 24 hrs a day to meet their needs for example someone with a terminal illness ~~with~~ with no hope of recovery & is in suffering pain will go to a palliative care ~~facility~~ facility so the pain won't be agonising and are able to say goodbye to their family. Another way that people are cared for at the end of their life is by staying home and being cared by loved ones for example someone with a terminal illness such as cancer who is dying may want to stay home and die peacefully in the comfort of their home surrounded by loved ones.
