	Can cause <del>is</del> debates about When do they become human Another argument is do embryos have human rights. Genetic selection is something that can also raise moral issues. Because of these arguments embryo research is debatable because it can be considered murder as the embryo is a potential human.
	Active euthanasia is when somebody takes/does some thing to speed up death. Non-voluntary euthanasia is when the person dying doesn't have a say if they

	<p>can have fun and play games. Hospices have medical equipment if someone needs it. Hospices can help people cope with death.</p>
41.	<p><del>There are</del> <del>there</del> Suffering is a thing nobody wants. Helping someone die can be compassionate as you are allowing them to escape pain and fulfil their wishes. However on the other side killing someone is a crime and a sin in the bible. No matter if someone asks you to kill them or not. No matter which side you look at it there are pros</p>
