

**Candidate 3**

Task Number

Introduction.

The aim of this report is give some suggestions to encourage more employees to eat in the company cafeteria, and to do this report 30 people have been asked to give their opinions.

Main finding1) Local produce and International food.

The staff suggest to serve our local and international food because the diversity of people work in the company. Moreover, the company should deal with some local producer to provide the ingredients for the each meal. The other thing, it can deal with some retailers to provide the international food to serve

2) Meal deals and Prices:

There are some ideas about the meal which

the cafeteria should serve to attract the staff. In addition, the staff have suggested some dishes for example Macaroni with spicy soup, chicken and rice and vegetables and fruit with acceptable price as they are far from the expensive meal deal price.

### 3) Healthy drink and snacks

The majority of the employees recommended a healthy drink such as fresh water, natural juice, and coffee and tea as well. Furthermore, the cafeteria should provide a healthy snacks like fruit, cheese and tuna sandwiches and bakery to serve, so the staff have opportunity to choose.

### 4) Canteen environment

The most important issue to run the cafeteria successfully is the environment. It should be contain a toilet for men and women and the fire exist should be always clear in case of emergency.

The other point is the cafeteria must have a good ventilation and clean equipment and clean staff.

### 5) Health and Safety

The company should employ a healthy and educated staff. Also they must wear a special uniform and this leads to attract more employees to eat there.

### Conclusion

To conclude, the company should work with the local to provide some product also it should keep the cafeteria clean and easy to access. The other point is to serve what the staff like. Finally, the canteen must be in a good environment.
