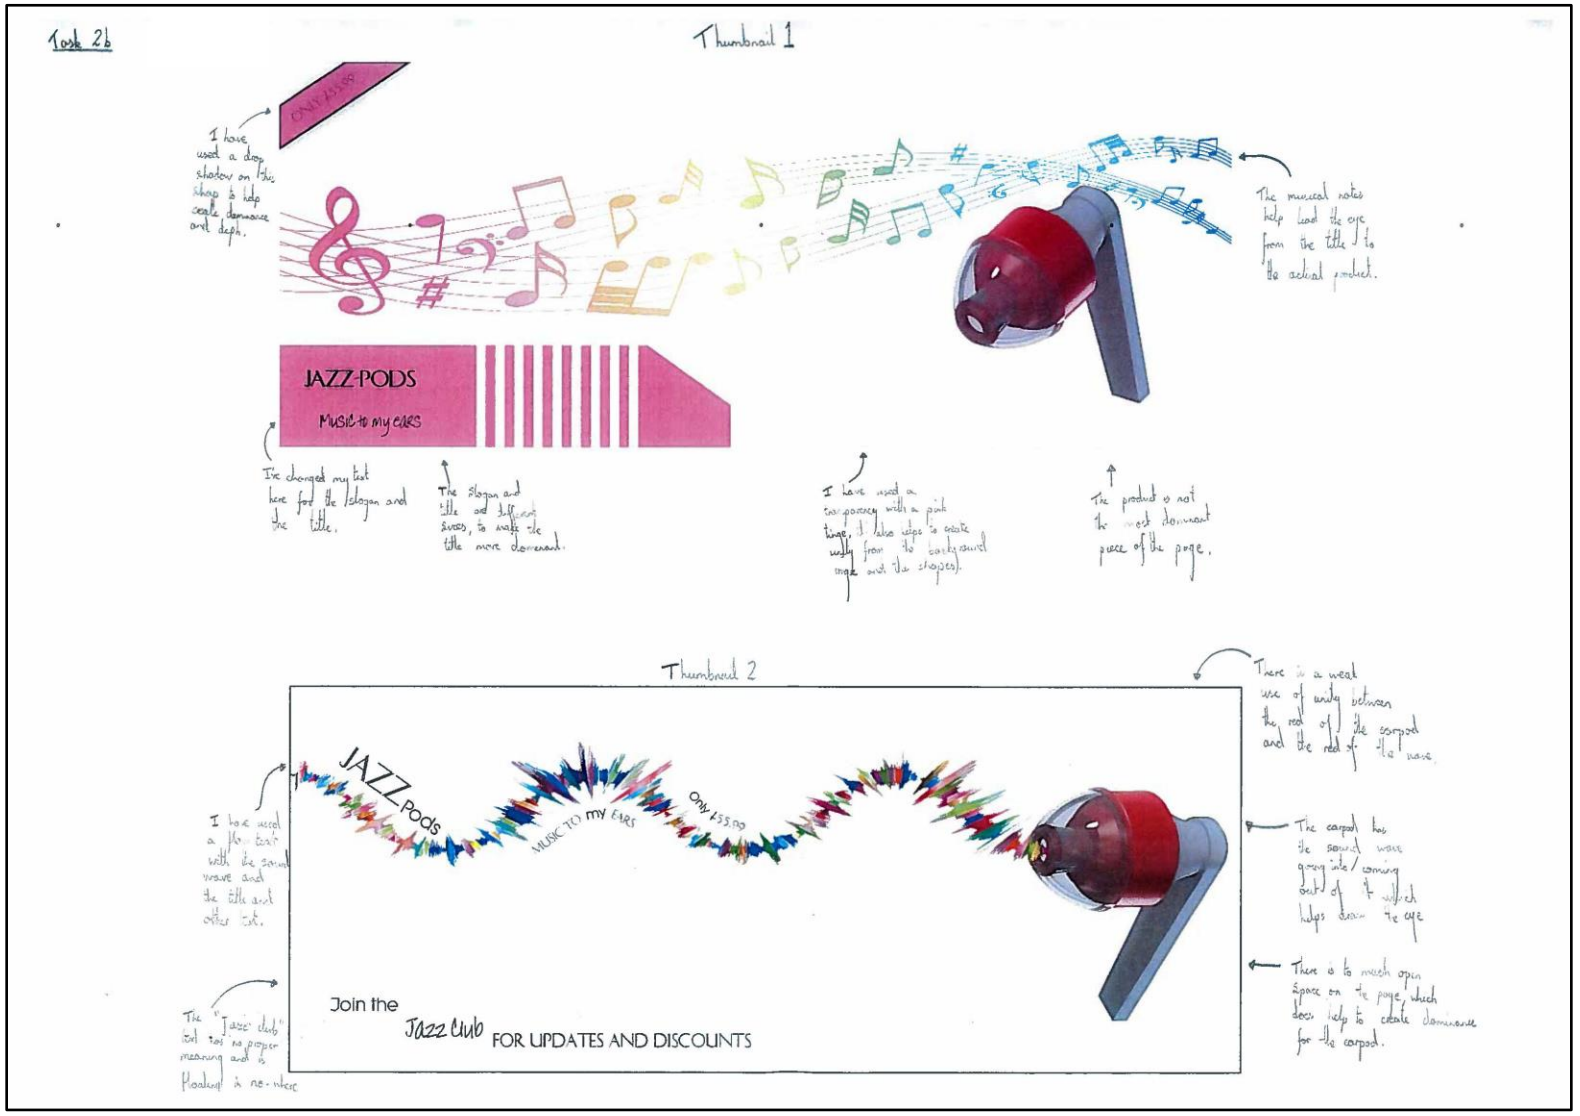
Task 2a



Task 2b
Thumbnail 1
ONLY £55.99
I have used a drop shadow on the shape to help create dominance and depth.
The musical notes help lead the eye from the title to the actual product.
JAZZ-PODS
Music to my ears
I've changed my text here for the slogan and the title.
The slogan and title are different sizes, to make the title more dominant.
I have used a transparency with a paint image, it also helps to create unity from the background image and the shapes).
The product is not the most dominant piece of the page.
Thumbnail 2
There is a weak use of unity between the rest of the earpod and the rest of the wave.
I have used a flo. text with the sound wave and the title and other text.
JAZZ Pods
MUSIC TO my EARS
ONLY £55.99
The earpod has the sound wave going into / coming out of it which helps draw the eye
There is to much open space on the page, which does help to create dominance for the earpod.
The "Jazz club" text has no proper meaning and is floating in no-where

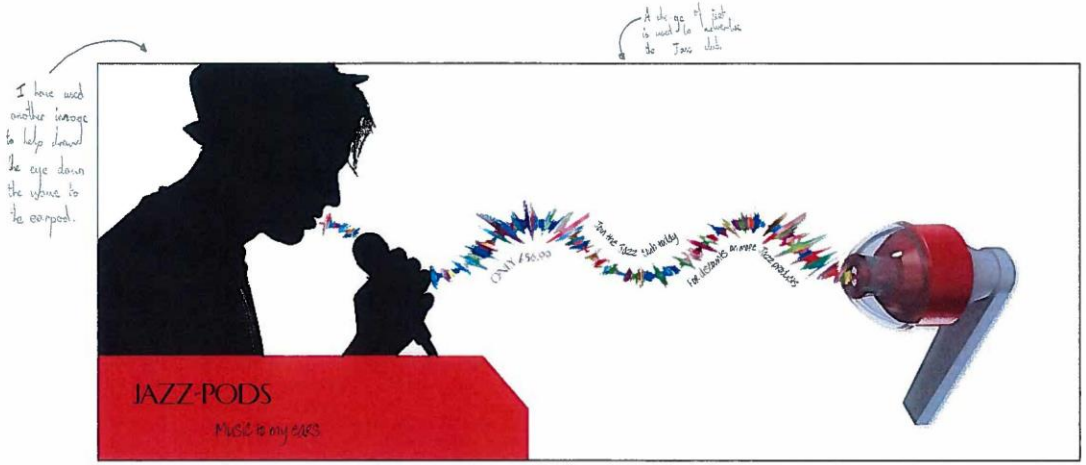
Task 2c



I have used another image to help lead the eye down the wave to the earpod.

At the age of just is used to be Jazz club.

ONLY £50.00

The same idea its has been used with the shape, title and slogan, this idea was taken from Thumbnail 2.

Unity is used between the rest of the title block and the rest of the content.

I have used a drop shadow on the earpod to make it more dominant.
